A Conversation with Dr. Allison Calhoun-Brown
1. The Data Governance Program is looking to shape its next steps in building the program. 

Thinking about your experiences with data at GSU, which of the following do you believe is the most important area to address?

- Data Access
- Data Compliance (e.g., trainings on FERPA, GLBA)
- Data Documentation (e.g., data definitions, quality rules)
- Data Fluency (e.g., facility with what data mean, technical aspects, analytic output)
- Data Quality
- Data Privacy
- Data Security
- Data Usage (e.g., for what purposes should GSU data be used)

2. Why do you feel [selected answer from above question] is important for GSU to address?
